Art Unit: 1723

Restriction is required under 35 U.S.C. 121 and 372.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In order for more than one species to be examined, the appropriate additional examination fees must be paid. The species are as follows:

species I including an inflow layer of synthetic fibers;
species II including an inflow layer of predominantly cellulose-containing fibers.

The claims are deemed to correspond to the species listed above in the following manner:

Claims 13-24 correspond to species I;
Claims 25-34 correspond to species II

No claims are generic.

A telephone call was made to Mr. Evans on 3-29-01 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Savage whose telephone number is (703) 308-3854.

This examiner can normally be reached from Monday through Friday from 7:00 AM to 3:30 PM.
